-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 11/28/2003
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Group II, claims 13-17 in the reply filed on 3/30/2004 is acknowledged. The election actually reads on claims 13, 15 and 17 since claims 14 and 16 depend on claim 12 (non-elected). The traversal is on the ground(s) that the examination of the groups will overlap with each other. This is not found persuasive because in fact, the examination of the groups will not overlap with each other. As stated in the restriction requirement, there are other uses for the product such as treating constipation. Thus, a reference reading on constipation would read on treating arthritis.

Claims 1-12, 14, 16 and 18-27 are withdrawn from further consideration since they read on non-elected inventions.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1654

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13, 15 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 363211219.

JP teaches that a composition to prevent dental caries is made which reads on the invention.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13, 15 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over FR 002590589, GB 2072657, Forster et al., Ting et al. taken with JP 363211219.

FR, GB Forster and Ting all teach the claimed compound. JP teaches to administer it to prevent dental caries. Thus, it would have been *prima facie* obvious to administer the claimed composition.
